

Turnberry Towers

To whom it may concern,

Summit Restoration has responded to several water losses here at Turnberry Towers. Thankfully the quick response time for their arrival has been a great benefit for damage control in these types of emergencies. Summits crew leaders provide knowledge in how these high rises are constructed and use that knowledge during the demo process to best suit the owner's needs. Summits crews are professionally dressed in uniforms and have always been respectful of our association's rules and regulations. In the future I will always refer to Summit Restoration for all my emergency's here because I know that I can depend on them to do the job right and in a professional manner.

Thank you,

Randy Morrison
Chief Engineer
