Re: Summit Remediation

To Whom It May Concern,

I have worked with Summit scores of times since my arrival in the Las Vegas area in 2006. They have always been utmost professionals. I know that I can count on Summit to complete a job in the most efficient manner and in the least time possible. They have always been on top of industry standards, and have never failed to complete a job to Westlife's satisfaction.

Summit's crews have always been courteous, well mannered, clean-cut and punctual. Summit has always maintained a line of communication between the client and Westlife to inform them of any problems that may occur during a remediation – keeping the timeline of the job to a minimum. Summit is a family owned, locally based company that has always been at the top of my choices to work with when ever possible. I would recommend Summit for anyone that needs honest, reliable, efficient, timely and highly professional service.

Please call or email me with any questions.

Sincerely,

Tom Quid, CMI
