Dear Mr. Dellaechaie:

Please consider this letter as a recommendation of the services provided by Summit Restoration. My company has been using Summit Restoration for several years and has found their services to be superior to that of their competition. They are always responsive, provide great service and are excellent at communicating their findings and recommendations.

Their knowledge and experience have been very beneficial in expediting the resolution of mold related concerns. Their quick response has also allowed us to confidently commit to leasing and selling move-in ready commercial real estate space to tenants and buyers.

I'm happy to recommend their services and willing to discuss our experience with them.

Sincerely,

T. R. (Rick) Barron  
CEO
